- Wizard PDS System
- RailRider Pro
- Finish Roller II
- Stand Alone Conveyors
- Horizontal Stacker
- Floor Truss Stacker
- Peak-Up Stacker

"I'd recommend MiTek Guardian right away. It's a smart choice to have your equipment serviced. You run the risk of going down and being down a lengthy time if you don't."

Premier Panel
Tim Oliver - Owner

The MiTek® Guardian™ program gives you access to technicians who are expertly trained on MiTek machinery, defending you against downtime.

"[Our technician] sees things that we don't see because he knows the machine very well."

Premier Panel
Robert Rushlow | Production Manager

SERVICE CALLS

You will receive between two to five service calls each year for preventative maintenance tasks, including inspections and minor repairs on the specified equipment covered in your agreement.

Each service call includes the following:

- Consulting with your team
- Making minor repairs
- Installing machinery upgrades
- Maintaining detailed service records
- Recommending spare part inventory
- Training others on operation and maintenance

SERVICE PLANS

Select a service plan that meets your protection and support needs, with each offering varying annual service calls and onsite hours.

PLATINUM	GOLD	SILVER	BRONZE
80 hours onsite (up to five service calls)	64 hours onsite (up to four service calls)	48 hours onsite (up to three service calls)	32 hours onsite (up to two service calls)
15% discount off all parts year-round	10% discount off all parts year-round	10% discount off all parts year-round	10% discount off all parts year-round
Roll over up to 16 hours of service into a new agreement			

All service account calls are scheduled for a minimum of 16 hours. For example, in the Platinum plan: 80 hours / 16 hours = five service calls, but they can be scheduled as four calls of 20 hours each.
