

SOFTWARE

Take Control of
Your Business with
a Unified System

MiTek[®] MANAGEMENT[™]

With real-time dashboards, role-based access, and deep configurability, MiTek[®] Management[™] is the only tool you need to manage every aspect of your business—from single-family homes to complex multi-family projects.

BENEFITS

Customizable Dashboards

Visualize job flows, production status, and delivery timelines with interactive gadgets that automate task progression.

Integrated Artifact Storage

Attach truss designs, sealed drawings, communications, and job site packages directly to each job.

Advanced Labor & Material Costing

Track labor down to piece-level attributes and optimize material usage with real-time pricing.

Multi-Facility Coordination

Share work across facilities while accounting for inventory and market differences.

Special Order Tracking

Ensure long-lead items are ordered and delivered on time with milestone-based alerts.

Audit Trails & Reporting

Generate branded reports for quotes, invoices, and EOR packages with full traceability.

Seamless Integration with MiTek[®] Production[™]

Stay informed on job status without switching systems.

Custom Milestones & Workflow Automation

Define your own process steps—jobs move automatically when conditions are met.

REMOTE PORTAL ACCESS

Instantly access and edit your MiTek Management project data from anywhere, on any internet-capable device. Securely view and edit customer details, quotes, build timelines, capacity, and more, ensuring a seamless workflow from start to finish.

- **Remote user support** and **customizable role-based access** support workflows outside of your organization, such as drivers marking a delivery complete, or remote designers modifying a truss design without installing MiTek Management
- Sales teams can update quotes and check prices on the fly, for **improved sales responsiveness** in meeting customer needs
- **Real time updates** and easy cross-department communications **enhance collaboration**, empowering teams to make quick, informed decisions
- Overall **improved accountability**, as users are able to track every stage of operations, from design to build to delivery, no matter where they are

Every part of your business is powered by **MiTek Management**. From the initial quote to the final delivery, our software is configured to drive your projects through every build stage. Capable of delivering the right insights to your team - just when you need it.
